

## 3D Isometric Photoshop Action

It's very easy to use this action:

### 1. Install action into your Photoshop:

Simply double-click the **3D Isometric Action.atn** file

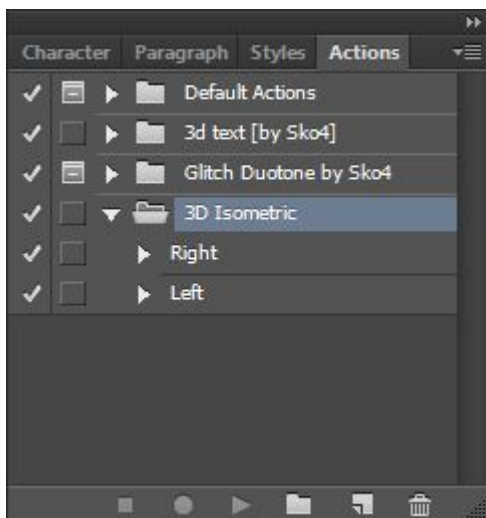

### 2. Create new file in Photoshop

### 3. Create your shape or text

Text layer | Vector shape | Pixel layer | Smart object | Folder group

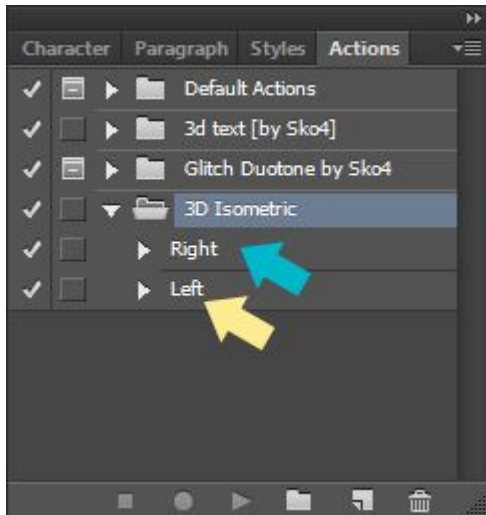

### 4. Go to the actions palette

If the actions palette is not visible, go to "Window", then click "Actions" in the dropdown

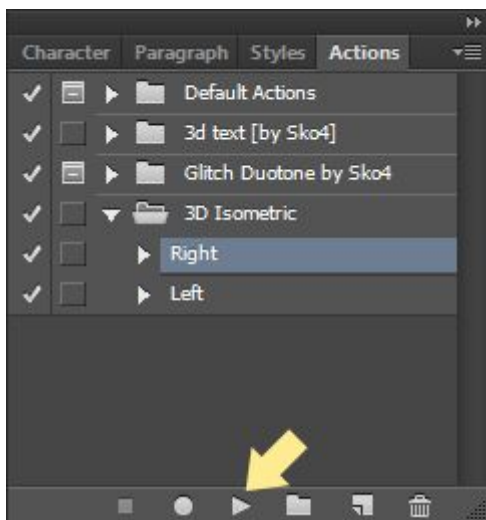

#### 4. Find **3D Isometric Action** in action palette

Choose Left or Right direction

#### 5. Click the 'Play' button and wait for the action to complete

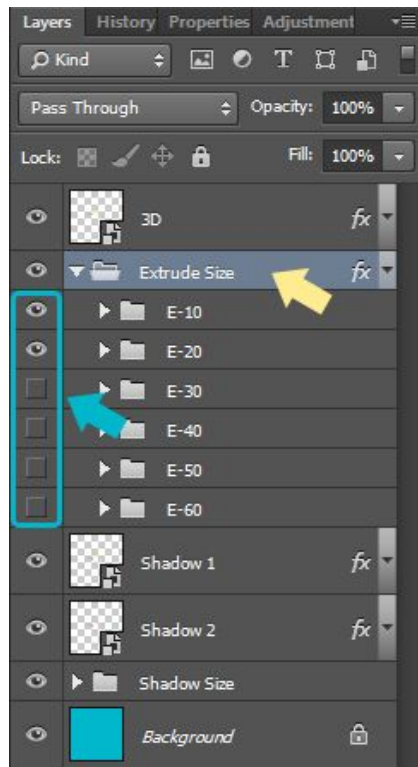

#### 6. Now you can customize the result:

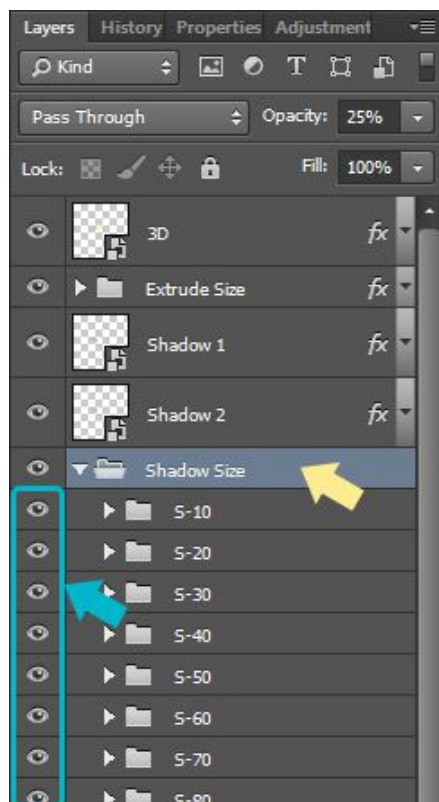

## You can choose extrusion size.

Just disable necessary groups of layers in “Extrude Size” folder

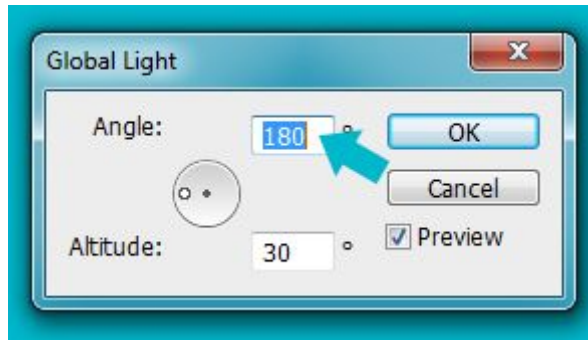

## You can choose shadow size.

Just disable necessary groups of layers in “Shadow Size” folder

## **You can choose light and shadow direction**

Use "Global Light" box Go Layer -> Layer Style -> Global Light
